

Break 85 every time

If you are struggling with scores above 90 then we have an improvement program designed to give you the skills to break 85 every time you go out on the course.

Read below to see how we can get you to a point where you are threatening to get into single figures. Take the decision now and contact us and we can plan to get started. The cost to you is £350 paid upfront.

Break 85 every time

This program will focus on five areas of improvement

Longer down the fairway more often

First we will be making sure that you find the fairway more often from the tee with added yards to make sure that you have shorter second shots. Playing your second off the short grass means your game becomes instantly more enjoyable.

Finding the green with short iron approach shots

Getting close to a single figure handicap means knowing that your mid-irons are going to find the green more often.

Become a master of recovery

We all miss greens and find bunkers. It is making sure that we get down in 3 or less that protects the scorecard.

Removing 3-putts and sinking more 12 footers

Most score cards are hampered by 35+ putts. Learning how to read a putt, especially for the distance and then how to miss will remove 3-putts. Along with a stroke that gives you more chance in the 5-10 foot range, this will drop the putts per round, and your score.

Making better decisions

Golf is about opportunity and risk management. We will equip you with the skills needed to master course management.
