

## Explore Approach Play

Golfers who are serious about reducing their score need to master their approach shots into the green. Better players waste less shots by consistently hitting the ball. So for £400 we are going to show you how to strike the ball more often and understand how to hit your fairway shots onto the green everytime!!! Interested? Contact us now and we can start to turn your irons into magic wands.

### Explore Approach Play

*And hit your shots from the fairway onto the green every time!*

This program will focus on four areas of improvement

#### **Reducing 'duff' shots**

Better players understand how the iron needs to be delivered to the ball to create a consistent strike and less 'duff' shots. We will show you how

#### **Understanding your movement**

Better players understand how to move to produce the best club delivery for consistent ball striking. We will help you find your own unique movement solution to solve this puzzle!

#### **Understanding why a ball curves**

It is very important that a golfer understands why a ball flies in the manner that it does. We will help you understand how a ball curves and help you master how to make it curve deliberately, a key skill requirement!

#### **Added power**

Striking the ball from the middle of the club face will help you hit it further but we will show you how you can hit it even further with some key 'power moves'

#### **Better decision making on-course**

Better players know when to 'take a pin on' and when not to. They know the smartest way to play approach shots. We will help you understand the thinking behind making better decisions
