

Golf Experience Days - The golf experience days offer the golfer a memorable and massively beneficial experience.

The golfer has breakfast with his/her assigned professional before venturing out onto the course for 9 holes. This is followed by a post round de-brief and work on the swing via state of the art video equipment. The golfer receives a video email of the lesson.

This is followed by work on the short game and an assessment of their equipment.

After lunch it is back out onto the course for another 9 holes to put to the test all the work that has been done.

These unforgettable days can be taken on a one to one basis or as a group.
