

Become a Master of Shot Shaping

This program has one purpose, to help you master curving the ball.

For £225 we will arm you with the necessary skills to shave shots off your game by escaping those tricky shots that require you to bend the ball around obstacles

Master Shot Shaping

This program will focus on three areas of improvement

Technique

Great golfers understand the physics of how to curve a ball deliberately and how to put their body in the most appropriate position to do this. They also know how they need to swing the club to achieve this skill. We will show you how

Practice to become more skilled and versatile

We will show you how to maximise your practice time by structuring practice sessions for you that will be focused on skill development and curving the ball

Real life scenarios

We will spend time on the golf course, giving you tricky scenarios to overcome, putting your new skills to the test
