

Become a Short Game Master

Golfer's who are serious about reducing their score need to master the short game. A good short game can protect pars and set up birdie opportunities.

If we can get your average score from within 40 yards down to under 3 then we will take 3 to 4 shots off your handicap.

So for £400 we are going to try to take 4 shots off your handicap or reduce your score by 10 shots by making you a short game master.

Interested? Contact us now and we can start to turn your wedge and putter into magic wands.

Become a Short Game Master

And reduce your score by 10 shots or more

This program will focus on five areas of improvement

Control of distance on Pitch Shots

Better players get the ball down the right line with their pitch shots, but improved scoring happens when you couple this with hitting the ball the right distance. We will teach you how to master this part of the game.

Getting up and down from around the green

Better players have a wide variety of shots around the green. We will teach you how to play lob shots, bump and run shots, how to chip the ball different heights and much more.

Bunker Rescue

Better players prefer going into the bunker in some cases. We want you to feel comfortable from the greenside bunker and from those 30-40 yard bunker shots.

Making you a master of the 15-foot zone

It is very simple, better players hole more putts. So through better understanding, more effective practice and green reading we want to help you to master this aspect of your game and lower your scores.

Added versatility

Providing you with the skills, technique and knowledge to find a shot you can play with a club that will give you the best chance of getting up and down or even sinking it
